

# NORTH CALDWELL PUBLIC SCHOOLS

## *Board of Education Connections*

### **SAVE THE DATE - April 4 - School Expansion Presentation**

Please join us on Tuesday, April 4 at 7:30pm in the Grandview Cafeteria for a Community Open Forum regarding the expansion of our schools.

Over the last year, the Board of Education has discussed the long-term capital requirements of our schools in light of aging buildings and expected demographic changes within North Caldwell. The Board, in cooperation with our architectural firm, has compiled and reviewed a list of the District's short-term and long-term facility needs and developed a number of school expansion options for consideration.

At this Open Forum, the Board will share:

- The rationale and timing for considering a construction referendum
- Overview of current and future facility needs within the District
- Architectural presentation of renovation/new construction options at Grandview School
- Architectural presentation of renovation/new construction options at Gould School
- Estimated costs for all construction options and the estimated tax impact of each option for families in the District

The purpose of this Open Forum is to share the potential expansion options and gain input and feedback from our community before the Board makes any capital or long-term planning decisions. Please plan to join us to be informed and to share your perspectives with the Board.
